

Acknowledgement of Referees

The Editors of *JAPS* would like to thank all the referees who provided anonymous peer-review reports on papers submitted to the journal. The timely publication, quality and success of the journal are dependent on the time, effort and expertise of the dedicated referees, and we are very much indebted to them. Many authors have highly appreciated the contributions of the referees in improving the content, quality and presentation of their papers. We count on their expertise and on going support in the future to maintain and improve the journal's quality and standard. As an acknowledgment of their valuable services, the names of referees who have reviewed articles for us over the period October 1, 2008 to September 30, 2009 are listed below.
